

WEAR A MASK

PROTECT YOURSELF. PROTECT OTHERS.

Make wearing a mask a normal part of being around other people. The appropriate use, storage and cleaning or disposal of masks are essential to making them as effective as possible.

Clean your hands before you put your mask on, after you take it off, and after you touch it at any time.

Make sure the mask covers your nose, mouth, and chin.

When you take off a mask, store it in a clean plastic bag, and every day either wash it (if it's a fabric mask) or dispose of a medical mask in a trash bin.

Don't use masks with valves.
